Reaching out for opportunities in BIPV

Parallel event organized by the European Photovoltaic Technology Platform

Hamburg, Germany, 15th September 2015

• CCH Congress Center Hamburg •

SESSION I: BIPV: Expectations and visions from Architects and Building industry

Chair: Marko Topič, Chair of EU PV Technology Platform

13:30 Introduction and welcome

Marko Topič, Chair of EU PV Technology Platform

13:45 Horizon 2020: Supporting (BI)PV innovation

Maria Getsiou, European Commission, DG Research and Innovation, Renewable Energy Sources Unit, Research Programme Officer

14:00 The visions from the European Photovoltaic Technology Platform

Silke Krawietz & Jef Poortmans, Leaders of the BIPV working group of EU PV Technology Platform

14:15 Expectations from the building sector

Stefano Carosio, E2BA coordinator

14:30 BIPV and challenges of Building Energy Management Systems

Christian Trodella, Siemens Building Technologies Division, Global Head Performance Contracting PPA

14:45 Q&A

15:00 COFFEE BREAK

SESSION II: Research, development and demonstration of innovative BIPV products

Chair: Wim Sinke, Vice-Chair of EU PV Technology Platform

15:15 R&D support for development of BIPV products

Philippe Malbranche, CEA INES Director

15:30 Products and system design for making PV a natural component of the building envelope

Pierre-Jean Alet, CSEM

"This project has received funding from the European Union's Seventh Programme for research, technological development and demonstration under grant agreement No 609783"

DETAIL

new energy
inspired by renewable energy

SOLAR MEDIA

- 15.45 What are the needs of the PV industry to further enable the developments**
Alexander Werner, Bosch Solar CISTech, Product Manager Energy Façades
- 16.00 Innovative approaches to regain dimensional freedom for BIPV models**
Jef Poortmans, IMEC
- 16.15 Advanced material research for BIPV products with high aesthetic attractiveness**
David Müller, Merck, Global Head of Strategic Marketing PV
- 16:30 Questions & Answers**
- 16:45 COFFEE BREAK

SESSION III: Panel discussion

- 17:00 Mobilize investment for innovative and competitive BIPV products manufactured in Europe for Nearly Zero Energy Buildings and Positive Energy Buildings**
Moderator: Gaëtan Masson, Becquerel Institute
- Maria Getsiou, European Commission, DG Research and Innovation*
Heinz Ossenbrink, European Commission, DG Joint Research Centre
Alexander Werner, Bosch Solar CISTech
Silke Krawietz, leader of the BIPV working group of EU PV Technology Platform
Emiliano Perezagua, SC Member of the EU PV Technology Platform
- 18:15 Concluding Remarks & Closing by**
Marko Topic, Chair of EU PV Technology Platform
Michiel Ritzen, IEA PVPS Task 15 Operating Agent
