

Reaching out for opportunities in BIPV – Technology and Industry developments

Marko Topič
on behalf of the Steering Committee
EU PVTP

CCH, Hamburg, 15 Sep 2015

PV in a period of transition

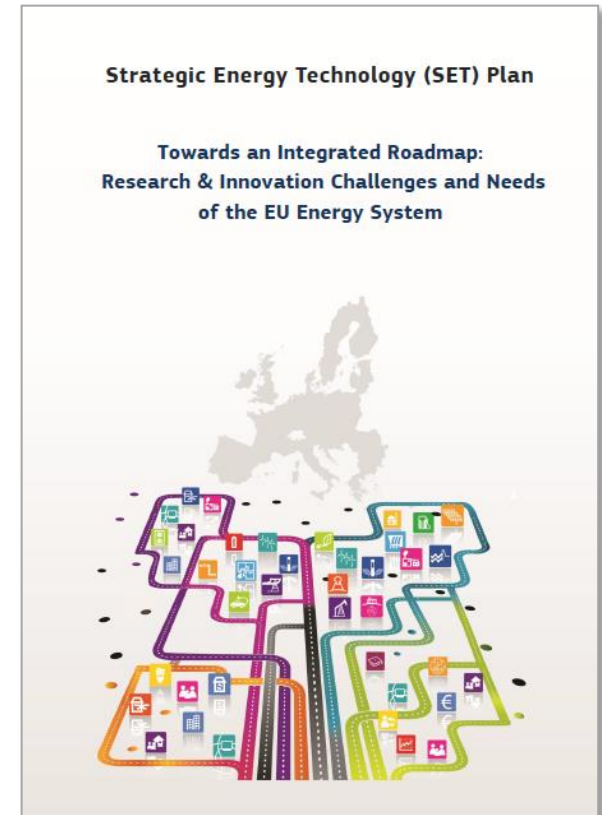

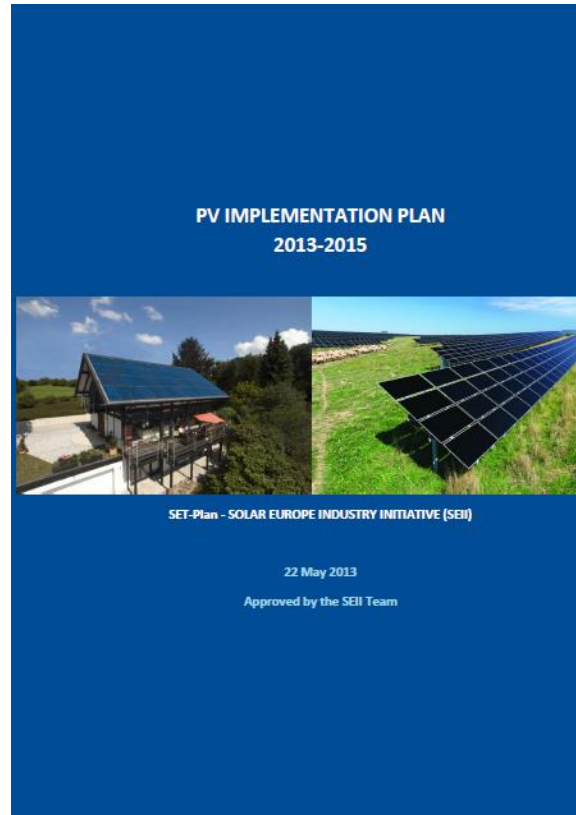

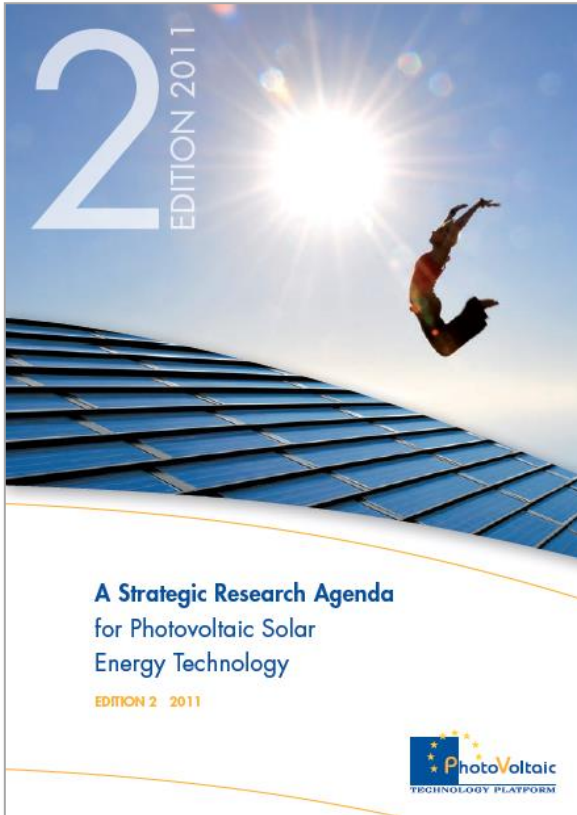

FROM:

- ▶ Technology-driven developments
- ▶ Incentive-driven markets
- ▶ Small contributions to the energy system
- ▶ Growth limited primarily by generation cost, not by integration
- ▶ Strong position of Europe over the entire value chain

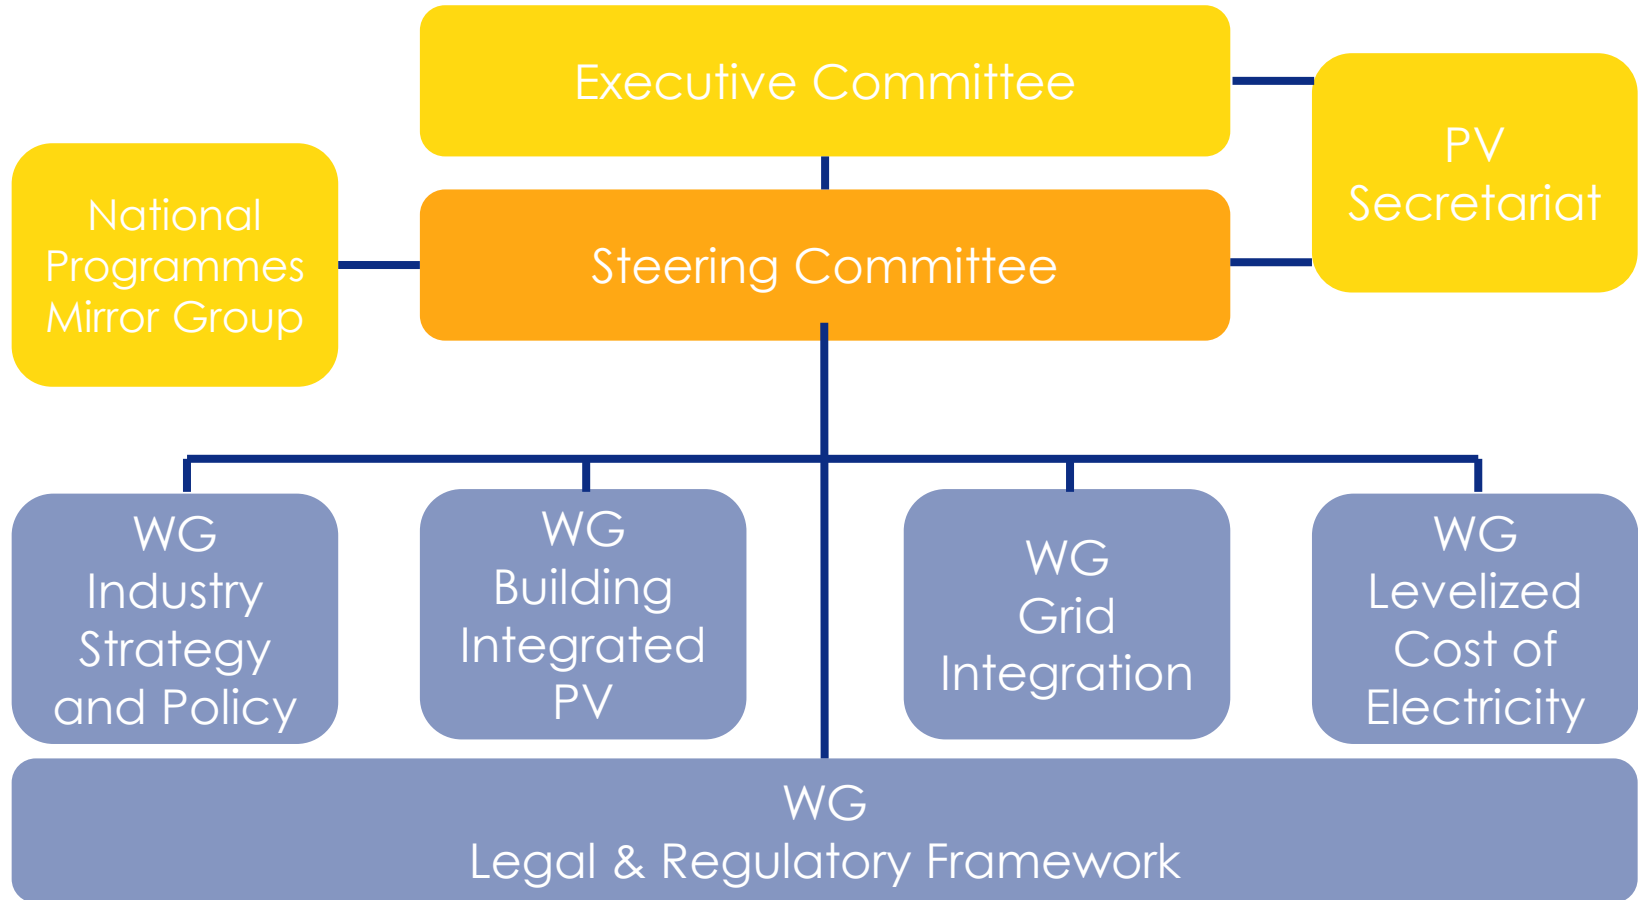

TO:

- ▶ Market- and application-driven developments
- ▶ Self-sustained commercial markets within a sustainable market design
- ▶ Major contributions to the energy system
- ▶ Growth limited primarily by integration, not by generation cost
- ▶ Fierce global competition; Europe's position continuously challenged

Addressing the challenge: recent documents

Organigram of EU PV TP

One-day conference
8 July 2015 • Royal Institute of British Architects, London

Where sustainability meets aesthetics

Energy efficiency in
buildings and Building-
Integrated Photovoltaics
(BIPV)

Thank you for your attention

Enjoy the parallel event!
